SKILLS

Technical Skills: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Node js, Express.js, MongoDB, RESTful APIs, Git

Soft Skills: Time Management, Teamwork, Problem Solving, Effective Communication

PROJECTS

School Management System – Full Stack MERN Application | *React.js, Node.js, MongoDB, Redux, Express.js, Material UI*

- 🔗 Deployed Link : <https://school-management-by-sameer.netlify.app/>
- 🔗 Github Repo : <https://github.com/SaimMeEr/school-management-app>
- Assisted in developing a School Management System web application using the MERN stack for efficient school administration.
- Implemented role-based dashboards with React.js and Material UI, providing customized access for admins, teachers, and students.
- Contributed to modules for class, attendance, and exam management, enabling real-time tracking and data entry.
- Helped integrate notice board and announcement features, allowing important updates to be shared instantly with users.

Employee Productivity Tracker | *HTML, Javascript, React js, Tailwind, Firebase*

- 🔗 Deployed Link : <https://employeeproductivity123.netlify.app/>
- 🔗 Github Repo : <https://github.com/anamika782/Employee-Productivity-Tracker-Application>
- Developed a web-based Employee Productivity Tracker for monitoring and analyzing daily work activities.
- Implemented task logging and time tracking features using React and JavaScript to enhance productivity insights.
- Designed a user-friendly interface with Tailwind CSS for seamless task and performance management.
- Integrated Firebase Authentication and Firestore to ensure secure user login and reliable data storage.

PharmaHub App | *HTML, CSS, JavaScript, React, Firebase, Tailwind CSS*

- 🔗 Deployed Link : <https://medicare-online.vercel.app/>
- 🔗 Github Repo : <https://github.com/SaimMeEr/Pharmacy-Mangement-Tool>
- Contributed to the development of a pharmacy management application enabling efficient prescription handling, medication scheduling, and patient record management.
- Built responsive and intuitive user interfaces using React.js and Tailwind CSS, ensuring ease of use for pharmacists and patients.
- Implemented real-time data features with Firebase Realtime Database to keep prescription and medication information updated instantly.
